INSTRUCTIONS - The various items of information which appear in the report are arranged according to a system of indentations which parallel the indentations in the column headings. A HANDBOOK on registration procedure illustrating the method used in reporting registration events, and containing digests of the principal registration forms, may be obtained from the Commission on request.

INDEX - An alphabetical list of the names of all security issuers included in this report appears on the cover page. A cumulative index to registration statements appearing in the report is issued periodically.

ABBREVIATIONS - Following are some of the more frequently used abbreviations:

- AMEND - amendment
- CONS - consent; i.e., consents of experts required to be furnished in registration statements

- FS - financial statements
- PR - prospectus

PHOTOCOPIES - The number of pages contained in each document filed with the Commission is reported in order to facilitate the placing of orders for photocopies. The Commission supplies photocopies of any document, or any part of any document, on public file. Prices are 10¢ per page for the first 100 pages in any single order, and 7¢ per page for each page over 100 pages. In ordering, please give file number and issuer name of registration statement.

IMPORTANT

The Securities and Exchange Commission does not pass on the merits of securities registered with it. It does not guarantee any securities, nor can it guarantee the correctness or accuracy of information filed with it in registration statements. The Securities Act of 1933 provides that a registration statement be on file with the Commission and open to public inspection for at least twenty days before a security issue may be offered for public sale in interstate commerce. The Act also requires that a prospectus containing a summary of the data in the registration statement be given to each purchaser of such securities at or before the time of the sale.
